

**REMARKS**

This application was allowed on December 13, 2007. Upon reviewing the allowed claims, Applicants' representative believes that minor amendments are appropriate to provide clear antecedent basis for some expressions that may be ambiguous. In addition, claims that appear to be redundant or substantially duplicative are canceled. Finally, references were recently found that should be made of record; and the accompanying Information Disclosure Statement brings such references to the attention of the Examiner.

One or more of the references cited in the accompanying IDS refer to sample sizes "stsz" and chunk offset "stco." However, these references do not describe recording the second video and audio data units "on a successive location of said record medium" as recited in Applicants' claims.

Consideration of this amendment and accompanying IDS and the re-issuance of the Notice of Allowance are respectfully requested.

Respectfully submitted,

FROMMER LAWRENCE & HAUG LLP  
Attorneys for Applicants
